Scott, Drew, and Marcus;

Thank you for the submittal of the November monitoring report and photos of the ponding of stormwater. In addition to the addressing the flooding you identified, please evaluate surface water flow from your site to Burgard Road (as documented in the attached photos). Please provide DEQ with a corrective measures schedule to address both offsite flow to Burgard Road and potential offsite contribution of stormwater to your site. Has an agreement been negotiated concerning the roadway cleanout?

Please submit to DEQ quarterly progress reports that documents completed and planned tasks for the quarter and next quarter.

For DEQ submittals, please provide one bound hard copy, one unbound hard copy, and a PDF of the complete report (Figures, Text, and Analytical). You do not have to follow the EPA format. My email limit is limited (less than 8 MB). Large documents should be sent on disk or using a file transfer site.

All documents (letters, ect) should be sent as a hard copy and PDF copy on a disk.

Documents should indicate that EPA has been copied.

Documents that contain engineering or geology professional work shall be stamped by the person in responsible charge.

Forward all future submittals to EPA as a PDF copy only (no hard copy) in the format outlined in the attachment.

EPA contacts are:

[DeMaria.Eva@epa.gov](mailto:DeMaria.Eva@epa.gov) (Eva DeMaria) and

[sheldrake.sean@epa.gov](mailto:sheldrake.sean@epa.gov) (Sean Sheldrake)

I look forward to our conversation next week.

Let me know if you have questions for me.

*Thank You*

**Subject:** Lampros Properties - November 2015 sampling results from the Source Control Evaluation program

Hello Jim,

The attached letter provides you with the results from the November 2015 stormwater sampling completed at Lampros Properties located at 9040 North Burgard Way. These results are being provided to you in accordance with the September 8, 2015 Draft Stormwater Source Control Evaluation Report. The attached letter also documents the observed flow of surface water onto the Site from properties to the south and west of the Site. Lampros Properties is undertaking steps based on observed and photographed surface drainage onto the site.

Hard copies of this letter (one bound and one unbound copy) are coming to you via regular mail.

Please let me know if you have any questions.

Thank you,

Scott
